A work of this character requires but little introduction. Each page tells its own story, as it is a history of the best performances made by trotters and pacers to harness from the earliest time up to the close of 1894. In it will be found all of the 2:30 trotters, all of the 2:30 pacers and all stallions that have sired 2:30 performers, together with their performers under them. In the 2:30 list of trotters and pacers the color, age, sex, sire and dam, as well as sire of dam is given where known. In placing this work before the public my aim has been to condense matters so that the price of the book would not be exorbitant. Of late years many have avoided a publication of this character from the fact that the composition bill was so high and because there is such a limited field, as is the case with all class publications. Should this book, however, meet with the approval of the public, it will be followed at the close of 1895 with one that will be much more complete and also contain more statistical matter.

That there are errors in this 2:30 Book is not denied. Absolute correctness is impossible in a work of this magnitude. Those who have handled statistical matter know that the trip from the copy book to the press is a very hazardous one, and that even the most careful proof reading will not detect all errors. Individual knowledge of horses will bring such faults to light and information of their existence will be thankfully received. By referring to the book it will also be found that there are a great many horses whose ages are not given, from the fact that they are not registered. Many of their pedigrees are also incomplete. Information on either of these points will be very acceptable. In other words, I want the assistance of every one on the turf papers, and every one who has occasion to consult these pages, to help in making this book more complete than it is at present. Turf writers, of all others, have occasion to refer to such a work frequently, and the more accurate it is the more acceptable it will be to them.

The basis of records used are those accepted by the National Trotting Association and the American Trotting Association. In other words, the records that appear here are the ones that each horse would be expected to start under should his owner decide to campaign him. This has made a number of changes in the performers credited to a few stallions, and has also made several changes in the table of champions.

In making the announcement of this book through the press I stated that it would be a work of about three hundred pages. Now that it is completed, I find that it contains three hundred and thirty-four pages. This includes the illustrations, which have not been folioed. There are, however, two hundred and ninety-six pages of printed matter.

M. E. MCHENRY, FREEPORT, ILL.

(THE DEMON DRIVER.)

Last season McHenry placed the world's record for pacing stallions at 2:03 $\frac{3}{4}$ with John R. Gentry, and in 1893 he drove May Marshall in 2:08 $\frac{1}{4}$, the world's record for pacing mares.

W. K. SMITH, TIFFIN, OHIO.

An Ohio boy that placed the half-mile track race record at 2:12¼
with Kitty Bayard.

GEORGE FULLER, NASHVILLE, TENN.

(UNCLE GEORGE.)

An Ohio boy of the old Buckeye stock. Years touch him as lightly as humming birds' wings. While at Glenview he gave Patron a three-year-old world's record of 2:19 $\frac{1}{2}$ and Elvira a four-year-old world's record of 2:18 $\frac{1}{4}$.

GEORGE STARR, TERRE HAUTE, IND.

Starr placed the world's race record for teams at 2:15 $\frac{1}{4}$ with Rose Leaf and Sallie Simmons at Columbus, Ohio, in 1894.
